ANESTHESIA AND PET CARE EVALUATION

1. Eating and Drinking OK? YES NO _____
2. Any recent weight changes? YES NO _____
3. Any recent behavior changes? YES NO _____
4. Any previous anesthesia? YES NO _____
5. If so, any problems? YES NO _____
6. Is your pet on medication? YES NO _____
7. Was medication given today? YES NO _____
8. Was food and water withheld? YES NO _____
9. Are there any other problems that you are aware of? YES NO _____

Anesthesia is never trivial or routine as every pet responds differently to medicine. To better evaluate the ability of your pet to utilize the drugs needed, we require the following test prior to anesthesia.

1. Pre-anesthetic Evaluation including CBC, Chem. 10, Clotting Time and ECG.....153.65

Other tests may be needed according to the health of your pet.

.....
